

Challenges in the Biotech Supply Chain

Tim Moore

Senior VP of Global Supply Chain at Genentech

Abstract:

Tim Moore will be speaking in a special session of the Bioproduction Forum on Thursday October 18 at midday. Tim oversees the production of Genentech's entire portfolio of biotech drug treatments with an annual revenues of \$9.284 Billion USD in 2006. Tim's keynote address will discuss issues such as the role of Contract Manufacturing, the globalization of the biotech supply chain, and the impact of disruptive new technologies to lower costs and improve supply reliability.

Date, time and location:

Thursday, October 18, 2007

12:00 - 1:00 pm

117 Stanley Hall
