
IEOR 290A – HOMEWORK 3

DUE MONDAY, APRIL 28, 2014 IN CLASS

C++ source code, and its documentation, to implement LBMPC for linear models and oracles is available from <http://lbmpc.bitbucket.org>. Download the interior point method implementation of LBMPC for linear models and oracles from:

http://bitbucket.org/lbmpc/lbmpc_ipm/get/1900e6636ead.zip,

and open the file `doc/LBmpcTP_doc.pdf`

In one-half page, summarize the process of steps needed to use this C++ source code. Also, make sure to list the different types of numerical solvers that can be used.
